POWDERLY SPEAKS. Mass Meeting of Knights of Labor in

New York. NEW YORK, August 26th .- About 300 persons, including curiosity-seekers and a heavy police force, attended a mess meet-ing of the Knights of Labor in Union Square to-night. It did not equal either in umber or enthusiasm the expectations of he projectors. The interest centered

mainly in Powderly.

The former employes of the New York

The Central Rail way officers may talk about goods being delivered, but they don't tell the truth. There are many merchants in New York who know different." Powderly dealt with Webb's charges that

the men were discharged for drunkenness or other causes prejudicial to the interests of the company. The speaker next dealt with Chief Arthur. CHICAGO, August 26th .- The engineers and firemen in the stock yards who have been on a strike, returned to work yester-day. Last night the switchmen, thinking the time propitious for the demand of an increase in wages, and hoping to profit by the victory of the firemen and engineers, struck, and the stock yards of the railway are once more tied up.

> CHICAGO, August 26th.—The switchmen of the Stock Yards Switching Association, after the adjustment of the grievances of the enginners and firemen yesterday, put a new phase on the situation, and this morning it was decided to dissolve the association and allow each road to do its own switching. The old men were told that their services were no longer needed and others were procured to do the switching. Superintendent Marsh went to the Stock Yards this morning at the head of 300 men to take charge of the police arrangements there, and see that no acts of violence were committed by the strikers. FIRENZI'S RIDER.

A New York Journal Accuses Jockey Murphy With Drunkenness.

NEW YORK, August 26th .- The Tribune is very severe in its report of Murphy's riding of Firenzi in the Monmouth handicap. It charges him with gross drunkenness in the saddle. Dr. Justin Experimenting With His New Patent. SYRACUSE (N. Y.), August 26th.—About 300 persons gathered near the village of

A telegram from Secretary Blaine was read, causing immense cheering. Congressman Smyser in-troduced Judge Munson of Madina, who made a speech nominating McKinley. He reserved McKinley's name to the last, and as it was pronounced cheers and shouts arose which fairly shook the house. When a vote was called for by Smyser, the walls quivered with the mighty "aye" that went up, and the crowd cheered and cheered Major McKinley then followed with his speech of acceptance, which was a masterly effort. THE JUDICIAL TICKETS.

In nominating for the judicial offices the Democratic Convention, obeying the dictation of its bosses, put some of its best men aside. Judge Stanly is aged and has not done judicial service, except years ago on the bench of the County Court one term, and never upon the Supreme bench, as had his competitor for the nomination. That he is an upright, able and respected citizen is

Judge Coffey has had for a few years what is considered to be the easy berth in the judicial department of the city and repudiate that Democratic leader and decounty of San Francisco, and it is an open secret that he was given the probate business because he was not deemed by his fellow Judges of the Superior Court at the time, equal to the weightier duties of the other departments. At the bar he had not gained any special prominence for ability. and was even better known for his journalistic work. His chief strength appears to be his amiability, his studious habits, his perpetual calm and his relation to the Blythe case. It will not help this very estimable young candidate to have it generally known that the Blythe syndicate worked as few partisans ever have labored for any end. No one will charge Judge Coffey. whose character forbids it, with any corruption or impurity, nor indeed will such assault be made upon his fellow nominees, but it is openly confessed by his friends that it would have been better for his candidacy had the Blythe syndicate have not labored and traded, and brow-beaten and

nominated the whole State asked. Who is Mr. Smith? He was Supreme Court Reporter at one time, and, we believe, retired with his competency.

The Democracy has lawyers from among whom it might have chosen with greater credit to the party; men of long practice at the bar, of extended experience upon the bench, of scholastic attainments and legal acumen, who had claims upon the party demanding recognition, but which were ignored. The boss is a shrewd polithe Supreme bench he has not added laurels to his crown nor exhibited breadth of judgment and a comprehension of the needs of a Supreme tribunal.

The ticket for judicial offices nominated Convention is in strong contrast to that of the Democracy. The present Chief Justice was wisely nominated. Judge Beatty, still in the prime of manhood, neverthe Justice of the Supreme Court of Nevada with high distinction for many years. He is a jurist of universally acknowledged ability and a man of irreproachable char-

judicial mind have made him one of the foremost lawyers of the State. His standing as a citizen is that of the man with-

out reproach. So we have the two tickets from which the people are to reinforce the Supreme bench. Let them do so with an eye single linee for the Supreme Bench, fought in the to putting upon it the very best, most Confederate service as a Colonel. The making of the Supreme Court ought to engage the profoundest attention of the electors. They should caast their votes in November with a view to elevating the character of the Supreme tribunal and placing in it the best order of talent and the broadest experience that can be secured. To attain that end we would not permit partisan influences to intervene, but when it so happens that party choice and the highest ability run side by side, as is the case with the Republican nominees. the voter's judgment can be easily formed.

BUCKLEY FOR GOVERNOR.

The Alta, edited by John P. Irish, the Democratic candidate for Congress in this district, says: "We warn the Republican organs that they will not be permitted to assail the private character and impugn the personal integrity of so upright and unblemished a man as Mayor Pond with impunity."

It is extremely kind to be thus forewarned, and very generous on the part of the Alta to inform the Republican organs as to what they will not be permitted to The only assault which any decent organ will seek to make will be upon those elements of personal character in Mr. Pond which will indicate his fitness

for the discharge of a great public trust. It is now as well known as any other fact that the last Legislature appropriated \$5,000,000 more than was required for the legitimate uses of State Government. It is equally well known that Christopher A. keys of the building "to be be devoted to Buckley was the party who projected those assaults upon the public treasury. The Alta will not have the hardihood to deny that Mr. Pond is Buckley's candidate for Governor, that Buckley has more than ordinary good political sense, and is therefore not mistaken in his candidate: that Mr. Buckley is a "boss," which is simply another definition for political venality. Mr. Buckley is the head and front of the Democratic party. He has placed Mr. Pond in command of the Democratic party. Mr. Pond is, therefore, sailing under Mr. Buckley's colors, and they are the black colors of political piracy. When, therefore, the Alta warns the Republican organs that they shall not be permitted to assail Mr. Pond, it is indulging in bombast, quite unbecoming in a journal of its stature. Mr. Pond will be assailed at least of the stature of the stature

that he was nominated by Mr. Buckley,

and will prove the creature of the man who made him. He is, therefore, the embodiment of Buckleyan methods, and is far more unfit to be trusted with the office of Governor than Buckley himself, because party—indeed, in the Convention his competitor received more votes from Judge Stanly's county than did the latter.

Mr. Hatch is a lawyer who has not certainly gained such standing at the bar or distinction upon the bench as to make his name much known outside of his immediate community. Indeed, his chief qualification seems to be the accident of his immediate community. Indeed, his chief qualification seems to be the accident of his immediate community. In representing the heirs of Mrs. Mary A. Crocker upon this occasion, I am performing a solemn but grateful duty. I ask you to join me in dedicating to public uses this edifice, which has been planned and constructed under the personal supervision and cost of our mother. I stand here in the place of one who, if she had lived, would have explained better than I the high and generous purposes he had in view when he first resolved to consecrate a portion of his means to caring for the aged and unfortunate; also, in the place of her who shared his lofty aims and faithfully devoted to their fulfillment her time and best thought while she lived among us a widow. Those who were intimate with the late Charles Crocker know that when death overtook him his mind was full of projects for admitting the poor, the aged and the sick to participate in the means which his energy and his foresight had acquired. Among them was the home for old people. This project was discussed many times in the presence of their children, but their plans were still incomplete when death suddenly overtook the father. The young, who may thus be overtaken by misfortunes, have the elastic attributes that dominate the hopeful and ambitious period of youth. They seek other employments and other fields of useful toil. But to those who are aged and feeble, the loss of property and the failure of business enterprises come with crushing force. It is to be hoped that some like these, in the years that are to come, may find shelter and comfort in this Old People's Home.

Others may come here who are wasted in health and broken in spirit; afflicted with the cares and ills that are incident to old age; they may be fretful and troublesome. Cases such as these should have special consideration. If they should develop some of the characteristics of childhood, they should be looked upon almost as children, and treated with that loving care that is accorded to the helpless. Let us then resolve among ourselves to make this institution all that its gentle feunder intended it should be—all that its name indicates—a veritable home, a place of comfort and of rest for those who are looking out upon the sunset of life.

In the selection of those who are to wait upon and attend the inmates here, I think great care should be exercised as to their physical temperament and mental training. CAPTAIN STAPLETON'S INDIGNATION OVER THE TALK ABOUT FAKES.

He Declares that the Sacramento Ball Team Has Not Been Treated Fairly -President Mone

Captain Stapleton, of the Sacramento baseball team, is indignant over the insinuations contained in a published communi-

That was the only bad beating we have receded it has been of the saline quality ceived this season, yet here's a great howl about our alleged indifferent playing. The day before that game we played the Oaklands on their own grounds, and beat them to the tune of 20 to 5. Did you hear any howl about that? Did anybody send communications to the papers about the Oaklands' indifferent playing? No, not much. The Sunday preceding that game we beat the Sar Franciscos by a score of 17 to 3. Nobody accused them of throwing down the game on the contrary, all sorts of apologies were made for them. They were called the "cripples," and it was promised that they would do better when the nine got into working order again. On the day be-fore that game we beat the Stocktons by a score of 18 to 4, but there was plenty of sympathy for Stockton and no condemna-tion. But in the latter part of May we turned loose and won game after game, until by the first of July we were as far ahead of the Sam Francisco as they were the same and the same of the San Franciscos as they were ahead of us early in May. That does not look like indifferent or 'fake' play-plaint and Haedrich swore to it. A waring, does it? For the past few weeks the San Franciscos, because they were losing, were termed the 'cripples'—one or two of their men were on the sick list. But what has happened to our nine in the past week? Four men—Roberts Godar Rowman and significant will take place next week. Four men-Roberts, Godar, Bowman and myself all laid up. They didn't make any apologies for us or call us the cripples. I declined, because I wanted to save Hoffman for the next day style of baseball he and his nine had been furnishing in Sacramento for the past three months, he shut up. Mone came after me again, but when he saw I was losing my temper he walked off, saying he would re-port me to my managers. Mone then ran to the reporters and tried to get them to

CONGRESSIONAL.

Washington, August 20th.—Washington, tell you I am truly proud of the people of my district, and I do not draw the line so as to include only my party friends, for ome of my best friends are Democrats, but I include my whole constituency in San Francisco. I wish I could continue but I include my whole constituency in San Francisco. I wish I could continue to serve them in Congress and render them what little service I might in representing their claims in the National Legislature, but I do not see my way clear to do so. I considered this matter very carefully one year ago, and I came to the conclusion that I must decline a renomination. the House congratulated him upon his re-nomination, and expressed the hope that he might reconsider his determination not to be a candidate for re-election. HAWAIIAN ISLANDS.

No News of a Revolution Received in Washington.

WASHINGTON, August 26th .- The State Department is in apparent ignorance of the threatened revolution in Hawaii, the news of which was printed last evening. Assistant Secretary Wharton said this morning that the Department had received abso lutely no information foreshado sing the litical trouble on the islands. The Navy Department is in the same condition, noth ing official having been heard. Assistant ecretary Soley said that the Departmen had sent its orders to Admiral Brown to come East with the Charleston on July 15th in the belief that she would not be needed there any longer. It took the orders two weeks to reach the Admiral, who started in obedience almost at once, and reached this coast before the letter from him to the department could get here. He will probably be ordered to return as soon as he can recoal.

After considerable debate on the subject, the Speaker decided that the question before the House was the rollerall on the passage of the lard bill.

Mason of Illinois appealed from the decision. On sustaining the decision the vote showed no quorum, and a call of the House was ordered.

no quorum, and a call of the House was ordered.

One hundred and fifty-nine members having responded to their names, and nineteen members having reported their presence to the Clerk, the speaker pro tem announced that there was a quorum present.

Morgan moved an adjournment, saying that he believed some agreement on the lard bill could be reached. The motion was lost.

Cannon then offered a resolution directing the Sergeant-at-Arms to notify the absent members to return to Washington without delay, and revoking all leaves of absence, except those granted on account of illness. Blunt, Crain and others protested against the resolution, saying that it was an unjust arraignment of every member mentioned in it, and its adoption would be a censure to those members. There was great conjusion in the House. Fully a dozen members were on their feet demanding a recognition on a question of personal privilege,

Finally Crain was recognized, and said that this was nothing but a petty species of bull-dozing, the object being to threaten us in order to compel us to yote. Illinois had been playing to the press gallery. He then criticized the resolution in a speech three-quarters of an hour long. At the conclusion of the speech the House adjourned.

I have no income other than that derived from my profession and my salary as a member of Congress, and it takes every dollar to support myself and family. My professional income has diminished, because nearly all my time is required for Congressional duties here, and if I continue in Congress it will soon be at an end. Then there is the expense of election every two years, which is considerable, notwithstanding the assistance rendered by the business men of San Francisco in defraying the campaign expenses.
